

Please register my complete opposition to any further relaxing of broadcast ownership regulations. We have seen the results of your earlier rulings, resulting in many local stations disappearing, increased minutes of commercials, lack of in-depth news, and lack of news and information that MAY be perceived as critical of the large corporations that currently own media. This country was built on democratic participation from an informed population that has fortunately become more inclusive since our founding fathers!). If you pass this regulation, we will see significant further degrading of information needed by an active informed public. You are chartered with protecting the PUBLIC interest. Please do so.

Thank you.

Carole Jackson
